CAREER OBJECTIVE

Final-year Software Engineering student at DIU (CGPA 3.87/4.00) with active undergraduate research in Bangla NLP and hands-on experience creating AI-enabled educational content for university students. Applying for the TAF Program 2026 to develop OBE-aligned digital learning resources for BLC, IOU.AC, and GoEdu.AC, support capstone and microcredential programs, and integrate AI tools into teaching practice — contributing as a faculty developer, researcher, and student mentor at Daffodil International University.

RELEVANT COMPETENCIES

- **Teaching & Mentoring:** Active educational content creator (YouTube) and peer mentor; experienced in supporting junior students through DIU Data Science Club workshops.
- **Research & Innovation:** Conducting undergraduate thesis on multi-label Bangla NLP — addressing a critical gap in low-resource South Asian language processing.
- **AI & Digital Readiness:** Proficient in 7+ AI tools; holds certifications in Generative AI, Machine Learning, and AWS Cloud Security; integrates AI into content creation workflows.
- **OBE & Digital Learning:** Certified in Outcome-Based Education (Alison); designed video lessons aligned with IOU.AC and GoEdu.AC microcredential frameworks.
- **Leadership & Communication:** Executive member of two university clubs; experienced in structured argumentation and academic presentation through MUN participation.

EDUCATION

Daffodil International University, Dhaka B.Sc. in Software Engineering · 4th Year · CGPA: 3.87 / 4.00	2023 – Present
Adamjee Cantonment College Higher Secondary Certificate (HSC) · Science · GPA: 5.00 / 5.00	2019 – 2021
Monipur High School Secondary School Certificate (SSC) · Science · GPA: 5.00 / 5.00	2011 – 2019

CERTIFICATIONS

- [AWS Academy Graduate — Cloud Security Foundations · Amazon Web Services · Apr 2026](#)
- [Getting Started with Machine Learning Algorithms · Simplilearn SkillUp · Apr 2026](#)
- [Introduction to Generative AI and Agents · Microsoft · Jun 2026](#)
- [ChatGPT Basics, Usage and Prospects \(Distinction\) · GoEdu.AC · Oct 2025](#)
- [Introduction to Outcome-Based Education in the 21st Century · Alison](#)
- [SQA Career Launchpad for Absolute Beginners · Ostad](#)

EXPERIENCE & LEADERSHIP

Educational Content Creator — YouTube (@maliharahman8979) <i>Digital Learning Channel · CS Topics for University Students</i>	Ongoing
– Produced 5 AI-enabled educational videos on core CS subjects, making quality education accessible to university students. – Designed structured video lessons aligned with microcredential and outcome-based frameworks used on GoEdu.AC and IOU.AC.	
Executive Member — DIU Data Science Club <i>Daffodil International University, Dhaka</i>	2024 – Present
– Organised peer learning workshops on data science, machine learning, and AI tools, reaching 10–20 department members per session. – Supported AI literacy initiatives and mentored junior students on data science fundamentals.	
Associate Member — DIU Model United Nations Club <i>Daffodil International University, Dhaka</i>	2025 – Present
– Developed communication, structured argumentation, and leadership skills through competitive MUN sessions.	

RESEARCH

Multi-Label Emotion Classification in Bangla Text

2026 · Ongoing

Undergraduate Thesis · NLP & Machine Learning · DIU

- Conducting systematic literature review and building a research framework for multi-label emotion classification in low-resource Bangla text, addressing a critical gap in South Asian NLP.
- Extending existing single-label corpora and benchmarking multiple machine learning approaches for Bengali NLP.

PROJECTS

SkillTrack — AI-Driven Corporate Training Companion

Capstone · 2025

System Design · UML · DFD · ERD · Software Analysis & Design

- Led full system design covering skill assessment, AI-based course recommendations, quizzes, mentor messaging, and progress dashboard, following OBE principles.

Career Tracker — CRUD Web Application

March 2026

HTML · CSS · JavaScript · PHP · MySQL

- Built a full-stack CRUD web application for managing and tracking personalised career options, featuring dynamic listing, add/edit/delete functionality, and a PHP/MySQL backend.

Blood Bank Management System

2024 – 2025

Java · OOP Backend

- Engineered donor-patient record management with authentication, eligibility validation, and real-time blood inventory tracking.

Hospital Management System

2024 – 2025

SQL · Relational Database Design

- Designed a relational database managing patient records, doctor schedules, and hospital operations.

Company Business System Network

2024

TCP/IP · DNS · Routing · Cisco Packet Tracer

- Configured and simulated a corporate network implementing TCP/IP, DNS, and static/dynamic routing protocols.

NutriSync — AI-Based Health Food Startup Concept

2025

AI Personalisation · Meal Planning

- Conceptualised an AI-powered health food delivery platform with a personalisation engine and condition-specific meal planning.

SKILLS

Programming:	Python · Java · JavaScript · PHP · C
Web & Backend:	HTML · CSS · Laravel (basics) · Google Sites
ML / AI:	Python (Data Analysis) · Machine Learning · Power BI
AI Tools:	Claude · ChatGPT · Gemini · Groq · Perplexity · Copilot
Cloud & Database:	AWS Cloud Security · MySQL · GitHub · MS Office · Google Workspace
Networking:	TCP/IP · HTTP · FTP · DNS · Cisco Packet Tracer
Other:	Git · OOP · System Design · Canva
Languages:	Bengali (Native) · English (Professional)

EXTRACURRICULAR ACTIVITIES

DIU BreakOut Algorithm Programming Contest — Participant

Spring 2025

Daffodil International University

- Demonstrated algorithmic problem-solving and competitive programming ability in a university-level contest.
